Technology Center 2100

Dear Sir:

This amendment and the enclosed remarks are submitted in response to the Final Office Action mailed December 9, 2002. Applicant respectfully requests reconsideration of the captioned application in view of the following remarks and amendments.

In the Claims:

Please amend the claims as follows:

23. (three times amended) A method of releasing stored content items from a server to make room for new content items, the method comprising:

- (a) identifying, on the server, a first stored content item and a second stored content item;
- (b) determining a first proximity between the server and a source of the first stored content item;
- (c) determining a second proximity between the server and a source of the second stored content item; and
- (d) releasing one of the first and second stored content items by directly comparing the relative values of the first and second proximities, wherein at least one of the first and second
